## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 11-25, 27-30, 32-34 are allowed. The following is an examiner's statement of reasons for allowance: As noted in the amendment (such as at page 14), the prior art did not teach or suggest the particular features of the claims (such as intermixing scrambling bits with a digital key to create digital key data, and then separately storing the scrambling bits in an input/output scrambling register for later use by a processing module to determine the digital key; and such as using a dedicated two-way link for transferring the scrambling bits between the multiplexer and scrambling register substantially simultaneously with the transfer of data between the battery of input/output registers and said multiplexer) in the context of the other limitations of the claims.

### ***Conclusion***

#### ***Points of Contact***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
